Gutterglove

THE PERFECT GUTTER DEFENSE

THE **Gutterglove**ADVANTAGE

Keeps debris out

Stainless steel micro-mesh keeps debris out while allowing water to flow, even in a major downpour.

No need to replace your gutters

Gutterglove Pro® fits any gutterto-roof scenario.

Ultra-lasting materials

Stainless steel and aluminum materials outlast plastic and uPVC, which can warp and crack.

PRO GRADE STAINLESS STEEL MICRO-MESH

Mesh won't warp or crack like plastic or uPVC, & blocks even the finest debris.

2 PATENTED V-BEND TECHNOLOGY

Raised V-Bend lifts debris off the mesh to improve water flow.

3 STURDY ALUMINUM FRAME

Withstands the harshest environments including heavy pinecones and small tree branches.

BUILT TOUGH WITH THE BEST STUFF

Gutterglove Pro® delivers innovation and flexibility, combining a sturdy frame, and stainless steel micro-mesh.
